

Rudolf van der Ven
Automotive Photographer

PRESS KIT

Rudolf van der Ven is a Belgium-based automotive photographer and has worked with brands such as Bugatti, Ferrari, Lamborghini and Porsche.

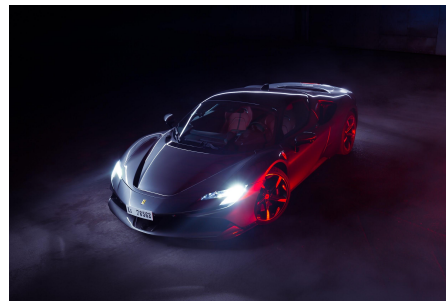

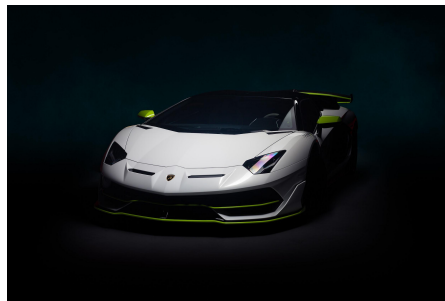

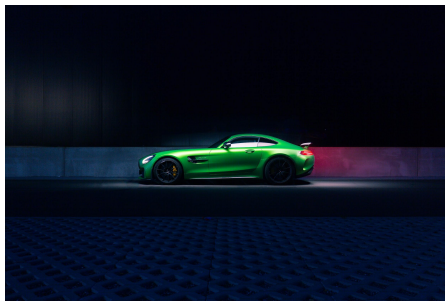

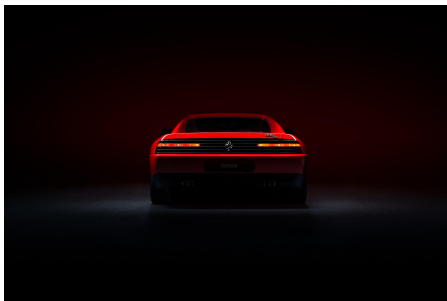

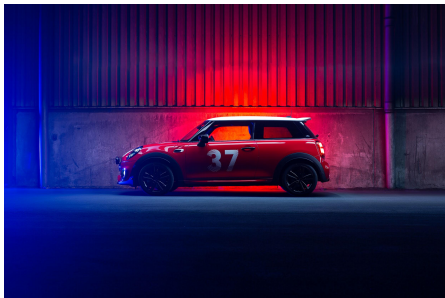

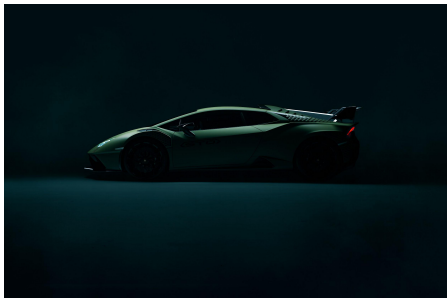

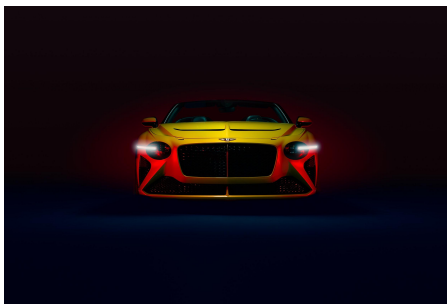

Since 2019 he has focused almost entirely on low-light photography and specifically **light painting.**

Through light painting, he manages to create dark, moody images, while at the same time enjoying extreme flexibility in terms of lighting.

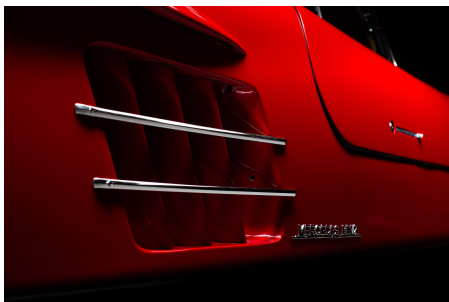

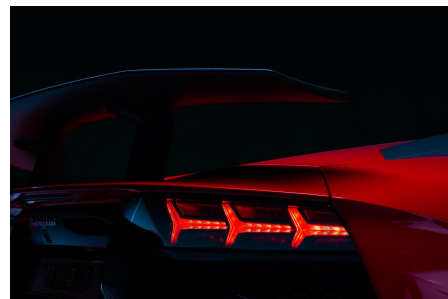

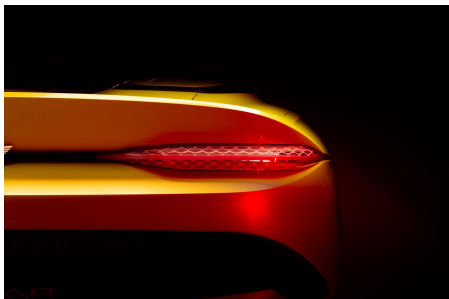

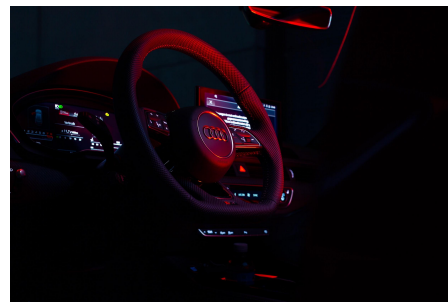

This leads not only to stunning results with lower shooting times, but also dissipates the need for large studio set-ups.

WHAT OTHERS SAY

Working with Rudolf is a real pleasure. For the Bentley, Bugatti and Lamborghini brands we often call on him because we strive for perfection. He knows how to make our brands stand out and he is also passionate about the automotive world.

Bernard Van Bellinghen – Brand Manager Bugatti
